

San Francisco City Workers United Forum

From Wisconsin To San Francisco

The Battle At Home

Proposition G and The War On Transit/Public Workers In San Francisco

May 22 (Sunday), 2011 2:00 PM
522 Valencia St./16th St.
San Francisco
(Donation Requested)

In San Francisco Proposition G was passed by the support of union busters and corporate controlled politicians. At the same time, SF MUNI MTA-TWU Local 250-A operators have been scapegoated in a racist campaign against the largely Black, Latino and Asian workforce. Prop G has also made it virtually impossible for TWU 250-A bus drivers and other MTA MUNI workers to negotiate about their work conditions and their health and safety.

The SF city bosses have also been trying to eliminate citywide seniority and outsource thousands of jobs while the city union officials have driven concession bargaining forward.

Proposition G is exactly what Wisconsin governor Scott Walker is doing as well and Newsom/Willie Brown's handpicked mayor Ed Lee is pushing for-

ward with more attacks on SF city workers.

The forum will have speakers from TWU 250 A and other SF city workers about the anti-labor assault including privatization of city services, who is responsible, and what we should do about it. SF TWU 250-A contract expires on July 1, 2011 and all SF City workers, transit workers and all public workers need to unite to fight back together.

Speakers From:

Muni TWU 250 A -Dorian Maxwell
SEIU 1021 members
IFPTE Local 21 members
UESF members and other SF city workers

Sponsored by:
